

**EXPERIENCE LEARNING**  
THE UNIVERSITY OF TENNESSEE, KNOXVILLE

## Faculty/Staff/Student Support Guide for Assessments

Congratulations on your approval for the Faculty/Staff/Student Support Grant! We want to thank you for your contribution to the program assessment. The QEP assessment plan for Faculty/Staff/Student Support grant recipients includes the use of a participant survey to evaluate the growth and effectiveness of student learning. Your participation and input is critically important for measuring student learning and evaluating the success of Experience Learning.

### Participant Survey

A participant survey serves as the assessment for Experience Learning opportunities under the Faculty/Staff/Student Support Grant. The assessment seeks to understand the effect of the experiential learning activity from the student participants' perspective. The survey will be administered at the end of the QEP activity. This assessment will be a requirement for all student participants to complete.

Below is a table that provides essential information on each assessment that will pertain to students:

### Summary of the Participant Survey

Assessment	Participation	Data Collection Method	Participants Completing Assessment	Occurrence	Process of Data Collection	Purpose
Participant Survey	Required	Questionnaire	Student Participants	End of courses	QEP team develops survey instruments. Surveys are administered through Qualtrics. Links to survey can be distributed by faculty or QEP team.	To measure student participants' perceptions of their own learning and attainment of the SLOs and benchmarks
